

Carbon Reduction Plan

Supplier name: Grundon Marine Ltd

Publication date: 30th August 2022

Commitment to achieving Net Zero

Grundon Marine Ltd is committed to reducing our carbon emissions

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2022	
Additional Details relating to the Baseline Emissions calculations.	
As a company with 1 office, we have not previously had a formal policy for Carbon and Climate change reporting. We are a company that carry out service work on commercial shipping worldwide so entails traveling by the most convenient means, this unfortunately creates a large carbon footprint, but we are committed to reducing this footprint to a minimum. We already supply paperless invoices and encourage other suppliers to e invoice our company	
Baseline year emissions:	
EMISSIONS	TOTAL (tCO₂e)
Scope 1	0
Scope 2	2.43
Scope 3 (Included Sources)	18.18
Total Emissions	20.61

Current Emissions Reporting

Reporting Year: 2022	
EMISSIONS	TOTAL (tCO ₂ e)
Scope 1	0
Scope 2	2.43
Scope 3 (Included Sources)	18.18
Total Emissions	20.61

Emissions reduction targets

To continue our progress to reducing our carbon emissions, we have adopted the following carbon reduction targets

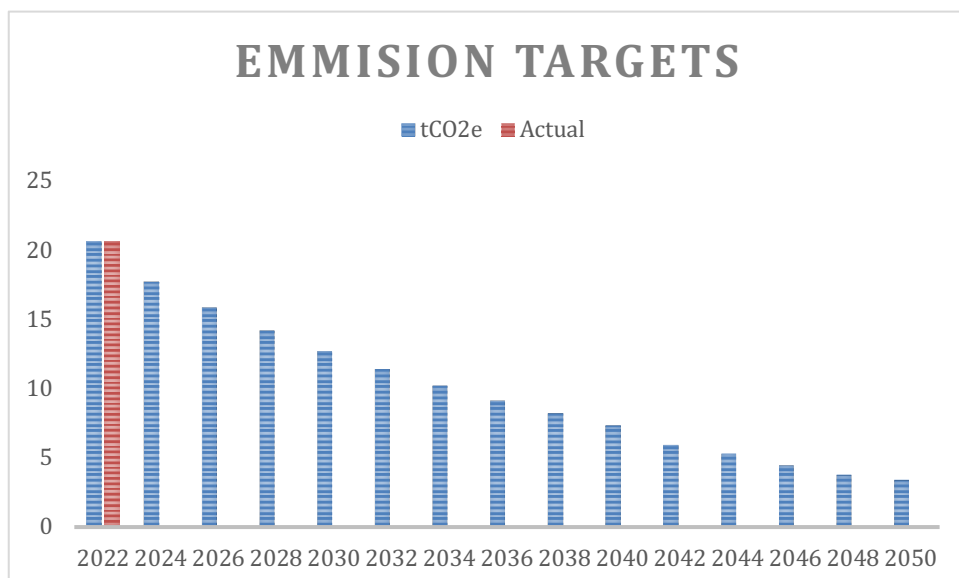

Have the engineers work from home as much as possible this reduces unnecessary travel to the office.

All office equipment not being used is switched off and unplugged

Ask our suppliers to produce their own Carbon reduction plans

We project that carbon emissions will decrease over the next five years to 14.62tCO₂e by 2027
This is a reduction of **26%**

Progress against these targets can be seen in the graph below:

Carbon Reduction Projects

In the future we hope to implement further measures such as the feasibility of electric cars as this would reduce our main carbon emissions

Declaration and Sign Off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard¹ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting².

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard³.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors

Signed on behalf of the Supplier:
